

# LGAQ Data and Analytics Services

## Data Ingestion, Curation and Storage in Data Lake

We provide a secure repository for council data as well as cleansing and curation of the data so it can be analysed to identify optimisation opportunities.

## Enterprise Dashboards

Easily provide executive level visual representation of performance metrics. Will highlight current status, areas of interest, with the ability to drill down for more info.

## Mandatory Reporting

Streamline mandatory reporting to assist councils in delivery. Create consistent reports for provision to State and Federal government and other legislative bodies.

## Webinars and Information Sessions

Monthly webinars to upskill on data and analytics to improve data maturity and internal capability. Topics will include product usage, data management, dashboards and more.

## Bespoke Data Analysis and Assistance

Data ingestion and understanding, including data management and governance. Development of bespoke dashboards or assistance with technical needs.
